Introduction to Programming

Distinction Task 11.3: Video Presentation

Overview

This video presentation is to allow you to showcase your program and to highlight the difficulties you faced.

Purpose:	Demonstrate that you have reached a D or HD grade level and to showcase your work.
Task:	Produce a video that both demonstrates your final product and highlights the challenges you faced and your solutions to those challenges.
Time:	This task should be completed before the due date for your portfolio. See the unit outline for details
Resources:	■ Recommended Texts, code-cast videos.

Note: If you are not currently up to date you should skip this task and return to it once you are up to date with the Pass Tasks. Do not allow Distinction Tasks to delay you in keeping up with the unit's Pass Tasks.

Submission Details

Upload the video to Canvas (see the unit announcements for submission of this item).

But bring a USB to the interview even if you upload the video to Canvas.

Instructions

Your video should be no longer than 3 minutes.
